HOUSE JOINT RESOLUTION NO. 37

WHEREAS, The College of Medicine of the University of Illinois has been forced by overcrowded conditions to adopt a policy of limiting its enrollment and to exercise selective methods in dealing with applicants for admission; and

WHEREAS, This policy, while necessary, is susceptible to grave abuses and may permit favoritism and discrimination in the selection of students, unless adequate objective criteria are established; and

WHEREAS, Many people are puzzled and disturbed by the fact that many apparently qualified applicants who are citizens of Illinois have been denied admission to the College of Medicine for reasons which have not always been clearly expressed; and

WHEREAS, Fairness to the citizens of this State and to the administrative officers of the College of Medicine demands that the admissions practices of the College be inquired into and that the basis upon which students are selected be brought to light; and

WHEREAS, A committee appointed pursuant to House Joint Resolution No. 22 is already charged with the responsibility of conducting an investigation into certain aspects of the Research and Educational Hospitals, which are under the supervision of the College of Medicine of the University of Illinois; therefore, be it

The Commission or any duly authorized representative or representatives thereof shall at all reasonable times have access to such records for the purpose of auditing, examining and checking the same for the purpose of ascertaining whether or not the proper amount of tax has been or is being paid as herein provided. The Commission may also require from time to time verified reports and statements of the total of all moneys wagered daily at a harness racing meet upon which the tax is assessed, and may prescribe blanks upon which such reports and statements shall be made. The commission is hereby authorized to make rules and regulations for the administration of this section.

Whereas, The proper location and dispersal of military facilities is a matter of much importance to the people of Illinois; and

Whereas, There now exists no established State policy on this subject which can serve as a guide either to the Illinois Adjutant General or federal authorities; therefore, be it

Resolved, By the House of Representatives of the Sixty-sixth General Assembly of the State of Illinois, the Senate concurring herein, That a committee consisting of five members of the Senate, to be appointed by the Committee on Committees of the Senate, and five members of the House of Representatives, to be appointed by the Speaker of the House, be created and empowered to consult with the proper authorities as to plans for changes in the site of military facilities in the State of Illinois, to assist in the formulation of a basic plan therefor, and to report to the General Assembly on developments that are taking place and the need for future policy declarations. Mr. Speaker—I am directed to inform the House of Representatives that the Senate has adopted the following preamble and joint resolution, in the adoption of which I am instructed to ask the concurrence of the House of Representatives, to-wit:

Senate Joint Resolution No. 32

Whereas, General Motors' Train of Tomorrow, featuring scores of engineering advancements and refinements, including the famed Astra Domes or glass "penthouses" atop the cars, will arrive in Springfield on May 31 and will be on public exhibition in this city on June 1 and 2; and

Whereas, The Train of Tomorrow may truly be called an Illinois product, as the idea of the Astra Dome was conceived by an Illinois resident, Mr. C. R. Osborn, vice-president of General Motors and general manager of its Electro-Motive Division at LaGrange, Illinois, the original model of the train was first exhibited in Chicago, and the train itself was constructed in this State by Pullman-Standard Car Manufacturing Company; and

Whereas, Although not in the railroad car building business, General Motors, because of its interest in the improvement of all forms of transportation, designed the train and ordered the cars built as a contribution to increased comfort and safety in rail transportation; and

Whereas, The Train of Tomorrow is a symbol of the free enterprise system and represents the American capacity for getting things done by methods that guarantee the individual freedom that makes a people strong; therefore, be it

Resolved, By the Senate of the Sixty-sixth General Assembly of the State of Illinois, the House of Representatives concurring herein, That, on behalf of the People of the State of Illinois, we cordially welcome the Train of Tomorrow to Springfield, the capitol of Illinois, and that we commend and congratulate General Motors and all other companies and individuals who participated in the construction and development of the Train of Tomorrow.

GENERAL RESOLUTIONS

The House proceeding on the order of general resolutions, Mr. Skyles offered the following resolution, which was referred to the Executive Committee:

HOUSE RESOLUTION No. 67.

WHEREAS, House Joint Resolution No. 21 directed the State Seditious Activities Investigation Commission to "investigate fully and completely any and all subversive activities which may now exist in any connection whatsoever at the University of Chicago and at Roosevelt College"; and

WHEREAS, The Commission, after a diligent and exhaustive investigation, has announced that it has no recommendations for legislative or legal action and will issue no report other than a transcript of the record of its hearings; and

WHEREAS, Although this announcement indicates that the Commission found no subversive activities at either of the institutions investigated, the mere fact that such an investigation was conducted might cause an unwarranted stigma to be attached to the two institutions and induce a degree of perplexity in the minds of those who lack either the leisure or the perspicacity necessary to read and evaluate the more than 300,000 words which are said to comprise the record of the investigation; therefore, be it

Resolved, By the House of Representatives of the Sixty-sixth General Assembly of the State of Illinois, That we declare it to be the sense of the House that the State Seditious Activities Investigation Commission has discovered no subversive activities in connection with either the University of Chicago or Roosevelt College, and that each of these institutions is exonerated of any stigma arising from the investigation.

"Sec. 7. Investment Contracts.

No such investment contract shall be sold or issued in this State unless the issuer shall deposit and maintain with the Secretary of State of this State, for the benefit of the holders of such investment contracts, a deposit of securities in which life insurance companies organized under the laws of this State are permitted to invest their funds in an amount not less than fifty thousand dollars ($50,000), and at no time less than the issuer's current contract liability on all such outstanding investment contracts as defined therein, heretofore or hereafter sold in the State of Illinois, provided that such securities, other than the bonds or notes secured by mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by him under the terms of an Act of Congress of the United States entitled the "National Housing Act", are listed in standard manuals or appear in quotations of transactions on the exchanges recognized by Section 3 of this Act. The State Treasurer of this State shall hold as custodian for the Secretary of State, the securities deposited with the Secretary of State for the benefit of the holders of the investment contracts coming within the provisions of this Section 7.

Securities deposited may be withdrawn at any time by the issuer at its option whenever other securities of like character are deposited in equivalent amount with the Secretary of State of this State in substitution therefor, or to the extent of any excess over the aggregate amount of the issuer's said current contract liability on all such outstanding investment contracts heretofore or hereafter sold in the State of Illinois, provided only that the amount of said deposit shall not be reduced by such withdrawal below $50,000 unless the issuer has ceased to sell the investment contracts for which the deposit is maintained and no longer has authority to sell the same in this State. The Secretary of State of this State shall permit a reduction of such deposit by withdrawal of securities as herein provided upon the filing by the issuer of a proper affidavit showing that the amount of such deposit is in excess of the requirements of this Section. Upon discharge in full of all liabilities on all investment contracts heretofore or hereafter sold in the State of Illinois and for which such deposit is maintained, the issuer shall be entitled to a release and return of the securities so deposited. The issuer making such deposit shall be entitled to collect and receive the income and payments made on securities deposited; provided, however, that the amounts unpaid on deposited securities shall at no time be less than the minimum amount required to be deposited hereunder, and provided further, that in the event the Secretary of State has reason to believe that such contracts sold in Illinois have become unsafe or insecure, or upon the insolvency or bankruptcy of the issuer or appointment of a receiver in equity, the right of the issuer to make such collections shall be suspended, and thereafter the Secretary of State shall collect and receive the interest and other income from such securities and all payments of the principal thereof, and shall hold the same in a separate account subject to the order of court as provided in the next paragraph.

Upon the insolvency of the issuer or appointment of a receiver or trustee in bankruptcy, the Secretary of State or his successors in office may apply to the Circuit Court of Sangamon County, or any other court of competent jurisdiction, for authority to proceed for the liquidation of such securities held for the benefit of the holders of such contracts in his office. The Secretary of State is hereby authorized to deal with such securities on deposit in this State for the benefit of the holders of such investment contracts, in his name, or, if the Court shall so order, in the name of the issuer. The Secretary of State may, subject to the approval of the Court, sell or otherwise dispose of the securities so deposited or any part thereof. He shall as soon as may be conveniently possible, give notice by publication as provided by law, and as the Court may direct, to all contract holders who may have claims against the issuer under such investment contracts and for whose benefit such deposit is held, to file and prove their claims in the manner and within the time the Court shall direct. In order to preserve so far as possible the rights and interests of the holders of contracts of such issuer sold in Illinois, he may liquidate such securities on deposit in this State by entering into contracts with any issuer or person able to buy such securities in whole, or in part. Upon receiving an offer or offers for the purchase of such securities in whole, or in part, the Secretary of State shall submit such offer or offers to the court, and if, after a full hearing upon the petition filed by the Secretary of State, the court shall find that the Secretary of State endeavored to obtain the best contract price for the benefit of said contract holders, and if the court shall find that the best contract price in the interests of said contract holders has been obtained, and that it is for the best interests of said holders of such contracts that such securities be sold, the court shall, by written order, approve the acts of the Secretary of State and authorize him to dispose of such securities. Upon the conversion of such securities to cash, the Secretary of State may then proceed to dispose of the sum received for such securities among the respective holders of such contracts as their interest may appear. Upon the liquidation and distribution of such funds, the Secretary of State may make proper application to the court for

final approval of his action in the liquidation of such securities and the distribution or disposition thereof or of the proceeds therefrom as herein provided.

For the purpose of liquidation of such securities, the Secretary of State shall have the power to appoint one or more special deputies as his agent or agents and to employ such clerks, assistants, attorneys, or solicitors, as may by him be deemed necessary and to give each of such persons such power to assist him as he may consider wise. The compensation of every such special deputy, agent, clerk, assistant, attorney or solicitor shall be fixed, and all expenses of taking possession of such securities of the issuer and the administration thereof shall be approved by the Secretary of State subject to the approval of the court and shall be paid out of the funds or assets received from the liquidation of such securities.

The Secretary of State shall at least annually, and oftener if he may deem it proper, appoint a disinterested qualified person or persons to make an examination and appraisement of the securities deposited with him, to determine if such securities meet the requirements of this Section 7, and the cost of such examination and appraisement shall be borne by the issuer of the investment contracts being sold or offered for sale in this State.

Securities in the class known as "Investment Contracts" may be disposed of, sold or offered for sale upon compliance with the following conditions, and not otherwise:

A statement shall be filed in the office of the Secretary of State:

(1) Containing a description of, a copy of the form of, and specifying the amount of, the securities intended to be offered or sold;

(2) Stating the law under which and the time when the issuer was organized;

(3) If the issuer is a corporation, attaching a certified copy of the charter or articles of incorporation, and amendments thereto, and a copy of the by-laws;

(4) If the issuer is a firm, partnership, trust or unincorporated association, attaching a copy of the articles of partnership, or association or the trust agreement;

(5) Attaching affidavits stating the names, addresses and occupations during a period of not less than ten (10) years prior to filing such statement (giving details as to time, place and address of employer and reasons for discontinuance of employment) of the officers and directors of the issuer, if it is a corporation, or of the persons composing the issuer, if the issuer is a non-incorporated association;

(6) Giving a detailed statement of the assets and liabilities of such issuer and income or profit and loss statement, and giving an analysis of surplus account; and

(7) Setting forth such other material facts as to such securities as the Secretary of State may prescribe.

Such statement shall be verified by the oath of not less than two credible persons having knowledge of the facts."

Sec. 123. Service of Process Upon Unauthorized Company.)

(1) The purpose of this Section is to subject certain companies to the jurisdiction of courts of this state in suits by or on behalf of insureds or beneficiaries under insurance contracts. The Legislature declares that it is a subject of concern that many residents of this state hold policies of insurance issued by companies not authorized to do business in this state, thus presenting to such residents the often insuperable obstacle of resorting to distant forums for the purpose of asserting legal rights under such policies. In furtherance of such state interest, the Legislature herein provides a method of substituted service of process upon such companies and declares that in so doing it exercises its power to protect its residents and to define, for the purpose of this statute, what constitutes doing business in this state, and also exercises powers and privileges available to the state by virtue of Public Law 15, 79th Congress of the United States, Chapter 20, 1st. Sess., S. 340, as amended, which declares that the business of insurance and every person engaged therein shall be subject to the laws of the several states.

[(1) The issuance or delivery of a policy or contract of insurance in this State, to a citizen or resident thereof, by a foreign or alien company transacting business in this State without a certificate of authority, shall be deemed equivalent to] *(2) Any of the following acts in this State, effected by mail or otherwise, by an unauthorized foreign or alien company:*

(a) The issuance or delivery of contracts of insurance to residents of this state or to corporations authorized to do business therein, (b) the solicitation of applications for such contracts, (c) the collection of premiums, mem-

bership fees, assessments or other considerations for such contracts, or (d) any other transaction of business, is equivalent to and shall constitute an appointment by such company, of the Director and his successor or successors in office, to be its true and lawful attorney upon whom may be served all lawful process in any action or proceeding against it, arising out of such policy or contract of insurance, and said [issuance or delivery] *acts* shall be a signification of its agreement that any such process against it which is so served shall be of the same legal force and validity as if served upon the company.

[(2)] *(3)* Service of such process shall be made by delivering and leaving with the Director a copy thereof and the payment to the Director of the fee prescribed by this Code. The Director shall keep a record of all process so served upon him. Such process shall be sufficient service upon such foreign or alien company provided notice of such service and a copy of the process are, within ten days thereafter, sent by registered mail by the plaintiff's attorney of record to the defendant at the last known principal place of business of the defendant, and the defendant's receipt and the plaintiff's attorney's affidavit of compliance herewith are filed with the Clerk of the Court in which such action is pending on or before the return date of the process or within such further time as the court may allow.

[(3)] *(4)* Service of process in any such action against any such company shall in addition to the mode hereinabove described be valid and legal if served upon any person within this State who, in this State on behalf of such company, is

(a) soliciting insurance, or

(b) making, issuing, or delivering any policies or contracts of insurance, or

(c) collecting or receiving any premium, *membership fee, assessment or other consideration* for insurance, or

(d) in any manner aiding or assisting in doing any of the things enumerated in clauses (a), (b), or (c) of this subsection; and a copy of such process is within ten days thereafter sent by registered mail by the plaintiff's attorney of record to the defendant at the last known principal place of business of the defendant and the defendant's receipt and the plaintiff's attorney's affiadavit of compliance herewith are filed with the clerk of the court in which such action is pending on or before the return date of the process or within such further time as the court may allow.

[(4)] The Court in which any action is pending, in which service is made in the manner provided in subsections (2) or (3), may order such continuance as may be necessary to afford the defendant company reasonable opportunity to defend the action. *(5) Before any unauthorized foreign or alien company shall file or cause to be filed any pleading in any action, suit or proceeding instituted against it, such unauthorized company shall either (1) deposit with the clerk of the court in which such action, suit or proceeding is pending cash or securities or file with such clerk a bond with good and sufficient sureties, to be approved by the court, in an amount to be fixed by the court sufficient to secure the payment of any final judgment which may be rendered in such action; or (2) procure a certificate of authority to transact the business of insurance in this state.*

The court in any action, suit, or proceeding, in which service is made in the manner provided in subsections (3) or (4) may, in its discretion, order such postponement as may be necessary to afford the defendant reasonable opportunity to comply with the provisions of this subsection and to defend such action.

Nothing in this section is to be construed to prevent an unauthorized foreign or alien company from filing a motion to quash a writ or to set aside service thereof made in the manner provided in subsections (3) or (4) on the ground either (a) that such unauthorized company has not done any of the acts enumerated in subsection (2) or (b) that the person on whom service was made pursuant to subsection (4) was not doing any of the acts therein enumerated.

(6) In any action against an unauthorized foreign or alien company upon a contract of insurance issued or delivered in this state to a resident thereof or to a corporation authorized to do business therein, if the company has failed for thirty days after demand prior to the commencement of the action to make payment in accordance with the terms of the contract, and it appears to the court that such refusal was vexatious and without reasonable cause, the court may allow to the plaintiff a reasonable attorney fee and include such fee in any judgment that may be rendered in such action. Such fee shall not exceed twelve and one-half per cent of the amount which the court or jury finds the plaintiff is entitled to recover against the insurer, but in no event shall such fee be less than twenty-five dollars. Failure of a company to defend any such action shall be deemed prima facie evidence that its failure to make payment was vexatious and without reasonable cause.

[(5)] *(7)* Nothing in this section contained shall limit or affect the right to serve any process, notice or demand required or permitted by law to be served upon any company in any other manner now or hereafter permitted by law."

Mr. Gormley, from the Committee To Visit Penal Institutions, submitted the following report which was received and ordered printed in the Journal, to-wit:

REPORT OF THE COMMITTEE TO VISIT PENAL INSTITUTIONS OF THE SIXTY-SIXTH GENERAL ASSEMBLY

Vandalia State Farm was visited; but, due to the fact, that the warden had submitted his resignation no recommendations are made for that institution.

At Menard it was found that the Prison was well managed by Warden Robinson. There are some things needed at this prison which will be mentioned at the end of this report.

The Women's prison at Dwight was inspected and found in excellent condition, and the inmates well taken care of.

At Pontiac, Warden Muny is doing an excellent job, but some vital improvements are necessary which will also be mentioned at the end of this report.

At Joliet, Warden Ragen was very cooperative and practically gave the committee the keys to this institution. He insisted that the committee visit the Isolation Ward where prisoners who were trouble-makers in the institution are confined. The committee came to the conclusion, after talking with

some of those confined in this Isolation Ward, that the Warden was using good judgment in setting up this division so as to keep those who would disrupt the institution in isolation. At Joliet it was found that some improvements were needed, and they also are listed on this report.

On the whole it was found that the Penal Institutions were in good hands. A copy of the inmates menu is attached to this report.

Recommendations for Immediate Improvements

At Menard the department which is bringing in a profit to the State, the tobacco factory, which pays into the State Treasury about $75,000 per year, badly needs some modern machinery, especially a tobacco press or mold. Also of vital concern to this committee at Menard is the fact that there is no connection with the outside power. If the power units now in operation within the prison should suddenly break down the health of the inmates might be impaired due to the water supply, and the security of the inmates might be seriously affected in case of a black out. This auxiliary power hook up is recommended as a must.

At Pontiac, one story of the administration building should be torn down as it is a fire menace and creates a safety hazard. It is also recommended that the cell house recently refurnished inside be tuck pointed outside, there being enough of the original appropriation to do this work.

At Joliet a school chapel and bath house is badly needed at the old prison, and cell house No. 1 at the old prison should be remodeled.

Only those things that are vitally needed are recommended on this report and the department of Public Safety should take immediate steps to carry them out.

Respectfully submitted,

The President of the Senate appointed as members of such committee on the part of the Senate, Messrs. Connors, Fribley, Butler, Miller and Mueller.

The committee appointed to wait upon His Excellency, Governor Adlai E. Stevenson, appeared in the Hall of the House of Representatives accompanied by the Governor, who, after being presented to the General Assembly, delivered the following message:

Mr. Speaker, Mr. President and Honorable Members of the Sixty-sixth General Assembly:

When presenting the Budget to you on April 19 I said I would have something more to say on schools.

I have recommended the appropriation of $112,000,000 for the Common School Fund for the next two years. This amount exceeds by 70 per cent the appropriation for the current biennium. It is the largest biennial increase in our history.

I recommend this very large sum because I believe it is a realistic recognition of the State's constitutional obligation to see that its children are properly trained to face the world in which they are destined to live.

Even a larger sum is doubtless needed to provide Illinois children the primary and secondary educational program we would all wish. But the amount proposed acutely strains our resources under the present State tax structure. It is, I think, all we can possibly and providently provide during the next two years to meet our obligation to give every child a good common school education. Moreover, we cannot justify this very large expenditure without taking every precaution to insure its most effective use. So long as State aid to schools was a comparatively small proportion of the total school and State budget, the State's responsibility for school organization and management could properly be delegated to the local school districts. But this appropriation represents 10 per cent of total appropriations from State sources and from a fourth to a fifth of total school costs. With a much greater financial responsibility than ever before goes a much greater responsibility for a better educational program than ever before.

Our school system is today in a transition state. Its original pattern or organization was designed to meet the needs of a sparsely settled frontier State. But the revolution in transportation and communication which our generation has witnessed has made that pattern of organization inadequate for the needs of today. It is unduly expensive. It is no longer adapted to furnish basic education of the quality and depth to which our children are entitled. A suitable climate for a broader and richer educational program is needed. Our world requires not only the indoctrination of moral principles and mental discipline requisite to community living, but also broader understanding of social, economic and scientific forces.

The little red school house—the one-room school—has earned an enduring place in our memories. But its place today is in our memories—not in the training of the children of Illinois to meet the infinite problems of the next generation. It should be continued only where unique geographic conditions combined with sparsity of population leave no alternative.

Very substantial progress has been made in the reorganization of our school system in recent years. The number of school districts has been reduced from 11,051 in 1946 to 6,166. If this healthy progress is to continue, local efforts to achieve a sound structural organization must receive tangible recognition from the State.

Our problem is two-fold—how to give that tangible recognition of constructive local effort, and how to stimulate wider effort toward more efficient local organization and better education; in short, how to make the most of this huge allocation of the taxpayers' money to common school education.

The suggestions which I now present to you are based upon the recommendations of a committee I appointed some months ago to advise me. In addition, they have been discussed with the representatives of many citizen groups which over the years have shown profound interest in the problems of our schools. They are calculated, I believe, to make some further progress toward a sound foundation educational program in Illinois.

First, let me mention a matter of mechanics which has hampered the General Assembly in dealing with the common schools in the past. Appropriations for the Common School Fund do not deal with the future, as in the case of most appropriations, but with the past. The appropriation to be made

by this General Assembly would normally provide State aid for the school years ending June 30, 1948, and June 30, 1949. One of these years has expired, and the other is almost over.

Under this system, the General Assembly makes its appropriations in terms of past facts. Its freedom to shape appropriations to accomplish desired future results is impeded because of the danger of an unfair retroactive effect.

But this time lag is no longer necessary, and I recommend that steps be taken now which will make possible its entire elimination by the next General Assembly. I propose, therefore, that after paying school claims for the school year which ended June 30, 1948, payments of school claims made during the period July 1, 1950 to January 1, 1951, be made on the basis of attendance during the school year ending June 30, 1949, and that claims during the last six months of the next biennium be paid on the basis of attendance during the first half of the 1950-1951 school year. The next step can be taken in the next General Assembly, and we can place the State's payment of school claims on a current basis, thereby enabling the Legislature to deal with the future rather than the past.

This proposal has the advantage of coordinating the payments by the State with sudden changes in school population and would be desirable for that reason even if it served no other useful purpose. However, it has the additional important advantage of enabling the General Assembly to legislate prospectively, to make changes in qualifying rates without applying them retroactively, and to lay down conditions from time to time which must be met for districts to qualify for any, or for additional, State aid.

A second group of recommendations is designed to promote sound reorganization of our school system and also to remove some of the factors which have tended to retard our progress in that direction.

The population limits for the formation of new school districts and for the undertaking of new functions by existing districts should be increased. The present minimum population requirement for a community unit school district is only 2,000, and for a high school district, 1,500. I recommend that both of these population limits be increased to 3,000. The Advisory Committee which I appointed recommended a population requirement of 5,000.

A district of that size would provide a high school population of 300 which is about the minimum school population for a good high school program at a reasonable cost. However, I doubt that we are prepared for such a radical change in the required size for school districts, and therefore I suggest, with the concurrence of several organizations interested in schools, a minimum population requirement of 3,000.

I also recommend that districts with less than 3,000 population, not now providing education in grades nine to twelve, be required to transport their high school pupils to other districts maintaining high school facilities. This recommendation is intended to prevent the formation of more small high schools which may become barriers to future reorganization. As a slight extension of the existing program, I propose that the number of pupils required in a high school district to entitle it to receive State aid be increased to 15 per grade effective June 30, 1953.

It follows that the formation of other types of new districts with populations of less than 3,000 should not be permitted except upon the joint certificate of the County Superintendent and the State Superintendent of Public Instruction that the formation of a smaller district will not interfere with the ultimate reorganization of the territory as a part of a district with a population of 3,000.

To remove impediments to reorganization, I urge that non-operating districts, except non-high school districts, be eliminated by June 30, 1951, and non-high school districts by June 30, 1953. These districts exist because they find it profitable from a tax standpoint to close their schools and transport their pupils to adjoining districts. Some were even formed as "protective districts"—not to maintain schools—but to avoid their fair share of the cost

of maintaining schools. Their elimination was recommended by the School Finance and Tax Commission in 1945 and more recently by my Advisory Committee.

For the first year of the biennium I recommend an equalization level of $120 with the present qualifying rate of 25 cents for districts in dual systems, but with a rate of 36 cents for unit systems.

This change in the unit district qualifying rate is recommended because the present ratio of 25 cents for districts in dual systems and 37½ cents for unit districts has, in many instances, resulted in less State aid for the unit system than would have been received by the separate districts.

For the second year of the biennium I recommend that the equalization level be fixed at $160 and the qualifying rates at 40 cents for districts in dual systems and 50 cents for unit districts. This will enable any school district to provide education at a cost of $160 a pupil without too burdensome a local tax. The equalization level of $160 is recommended because careful studies indicate that amount as the present cost of the foundation program proposed by the School Finance and Tax Commission in 1945. As the equalization level approaches the cost of a foundation program, the State has the right to insist that there be a reasonable contribution to that cost at the local level. If we are to continue, as I think we should, to have local control of our schools, we must have local responsibility and the incentives to economy which are found in tax consciousness at the local level.

I have been impressed by the fact that no State agency has responsibility for the formation of a legislative program for the common schools. With State expenditures in this field so large, and the problems so numerous, particularly during this transition period, I believe that a commission should be established, consisting of three members of the Senate, three members of the House, and five public members, plus the Superintendent of Public Instruction and Director of Finance ex officio, to prepare estimates of the amount of State aid which should be appropriated by the next General Assembly and to submit their estimate to the Budgetary Commission by October 1, 1950. That commission should also study further problems of school organization and State aid, including:

(1) Changes in the State aid formula to encourage desirable reorganization of the school system and the definition of what constitutes a properly organized school district for the purpose of receiving State aid.

(2) Whether increases in transportation aid are desirable and, particularly, whether a sparsity factor should be included in allotting transportation aid.

(3) Problems which may arise with respect to the proposed dissolution of non-operating districts.

(4) The organization and financing of junior colleges and nursery schools.

(5) The consolidation of the various school tax levies.

(6) School budgetary and accounting practices.

While there may be opposition to some of these proposals, particularly to those which increase the population limits for various types of districts, they have the support of thoughtful groups and individuals who are deeply concerned with the welfare of our schools. In appraising opposition to continuing improvement in the structure of our school system, we must bear in mind that the price of progress is now, as it always has been, the dislocation of established patterns and habits. Now, and in this field, as always and in all fields, progress cannot accommodate all vested interests, whether those interests are real or imagined.

Generous financial support of efficiently organized school districts is a sound investment for the State. State support of poorly organized districts is not only financial folly; it is failure—failure to meet our obligation to our children.

One further observation. The budgetary recommendation of an expenditure of $112,000,000 for the Common School Fund is based upon the revenues anticipated in the budget. Particularly, it is predicated upon the adoption of House Bills 678, and 679 and 680 to increase our revenue by restoring the Retailers' Occupation Tax to its original scope by removing exemptions which have resulted from judicial decisions. Unless this revenue legislation is adopted, reconsideration of the amount to be appropriated for the Common School Fund may be necessary.

I need not tell the members of the General Assembly that we are discussing today one of the State's most vexing and imperative problems, be it measured in terms of money, of public concern or constitutional responsibility. Common school appropriations have grown by leaps and bounds. In 1939 the Legislature appropriated $29,494,000; today I am recommending $112,000,000, an increase of 280 per cent in a decade. And still more was demanded and with good cause.

I have a feeling that this largest of all the State's expenditures has grown from session to session less from coherent, purposeful design than from attrition and expediency. I don't believe that is the way to deal with a perpetual problem of such magnitude and importance. I think it is high time we took our bearings and decided, as best we can within the limits of economic uncertainty and a taut local tax situation, just what our objectives are and the proper relative State and local responsibiilty.

I think we may well conclude that if the current median cost of a defensible foundation program is about $160 per pupil in average daily attendance, the State should make it possible for all properly organized school districts to provide this program in the future. What the State does in addition is not for the purpose of meeting the needs of the school system, but for the purpose of bringing about a desired relationship between State and local taxes.

In spite of spectacular progress in reorganization we still have 6,166 school districts and over 5,000 one-room schools in Illinois. Only four states have more districts and we may well also conclude that we must press on boldly for larger, more economical and better schools.

The recommendations I am making here today in connection with the proposed expenditure of $112,000,000 for schools point toward these goals—realistic recognition of the State's responsibility and better school organization. They lay some of the planks in a structure which I hope will ultimately provide future generations of Illinois citizens with better equipment to deal with their problems. But they are only a beginning. I hope you will think well of them.

House Resolution No. 71

Whereas, Using only reserves, while the first team was kept under wraps, the softball team of the House of Representatives won the undisputed championship of the Sixty-sixth General Assembly, forcing the doddering Senators to beg for mercy before the regulation number of innings had been played; and

Whereas, Prior to this impressive triumph by the heroes of the House, certain aldermen of the City of Chicago, as well as the distinguished Mayor and Corporation Counsel of the municipality, had been heard making snide remarks concerning the ball-playing ability of members of the General Assembly and engaging in a braggadocio concerning their own alleged athletic prowess; and

WHEREAS, In view of the bostfulness of the aforesaid officials of the City of Chicago, it is only fitting that they be given the opportunity of pitting their heretofore untested athletic ability against the proven power of the stalwarts of the House; therefore, be it

Resolved, By the House of Representatives of the Sixty-sixth General Assembly of the State of Illinois, that, as the acknowledged champions of the General Assembly, we issue a challenge to the Mayor, the Corporation Counsel, and the City Council of the City of Chicago to meet the members of the House of Representatives in a softball game at a time and place suiting the convenience of the city fathers, the net proceeds of the contest to be contributed to charity; and be it further

Resolved, That a copy of this resolution and its preamble be delivered to His Honor, Martin H. Kennelly, Mayor of the City of Chicago.

And the resolution was unanimously adopted.

Sec. 25-54. Upon the application of a member while employed as a teacher, or of his employer, or by a member within thirty-one days after cessation of such employment, any member who has had ten or more years of creditable service (except as modified by the provisions of Section 25-56.1) of which at least the last five years have been credited under paragraphs 1,

2, 4, 5 or 6 of Section 25-44 and who is not entitled to an age retirement allowance under Section 25-49, may be retired by the board, as of any date, not more than thirty days prior to the date of filing the application, nor prior to the date upon which salary ceases to be paid because of such disability, on a disability retirement allowance, if the board finds after a medical examination of the member by two competent disinterested physicians selected by the board that he is mentally or physically incapacitated for the further performance of duty, that the incapacity is likely to be permanent and that he should be retired.

Sec. 25-55. Except as otherwise provided in Section 25-55.1, upon retirement for disability a member shall receive a disability retirement allowance consisting of:

1. An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of retirement; and

2. An additional annuity equal to 90 per cent of the annuity which the member would have provided had the member remained in service until the minimum age at which he would be eligible for an age retirement allowance and continued to receive the same salary as he did before disability was incurred; and

3. If the member has credit for service rendered prior to the establishment of the system a pension equal to 90 per cent of the pension which would have been provided at the minimum age at which the member would have been eligible for an age retirement, on account of contributions which would have been made during the period of prior service creditable to the member had the system been in operation and the member contributed thereunder.

4. If the total of 1 plus 2 plus 3 of this section is less than the larger of (a) $400 or (b) 30 per cent of the most recent annual contract salary, but the amount produced by such percentage not to exceed $1,000, then a further pension of such amount as is required to bring the total annual retirement allowance of any member retiring under this section after July 1, 1949 up to the larger of (a) or (b) under this paragraph, subject to the aforesaid limitation.

Sec. 25-56.1. Upon application of a member while employed as a teacher, or within thirty-one days after cessation of such employment, which member is not entitled to an age retirement allowance under Section 25-49, or to a disability retirement allowance under Section 25-54, whose last five years of creditable service prior to the date of the filing of such application have been credited under paragraphs 1, 2, 4, 5 or 6 of Section 25-44, and who has been a contributor for at least one year after July 1, 1947, such member may be granted a temporary disability benefit. Such benefit shall be granted only if such member is found by medical examination to be mentally or physically incapacitated to perform the duties of his position as a teacher, and if application therefor is made more than ninety (90) days subsequent to the commencement of disability, the benefit shall begin to accrue from the date of application.

The benefit shall begin to accrue on the 31st day of absence from service on account of disability or on the 31st day following application made after cessation of such employment, except in the case of application made more than ninety (90) days subsequent to the commencement of disability as above provided, shall be payable during the time the member shall not receive nor have a right to receive any salary as a teacher, and shall continue until the time any one of the following events first occurs: (a) disability ceases; (b) attainment of age 65; (c) the aggregate period for which temporary disability payments made to any member during his entire period of service become equal to one-quarter of the total period of creditable service of the member not including the time during which the member shall have received ordinary disability benefit; (d) the member has been found to be engaged in gainful employment, but if such status has changed and the member is found upon examination to be disabled for employment as a teacher the benefit shall be resumed as at the time the benefit payments ceased for his last period of disability.

A member shall be considered disabled only when the board of trustees shall have received (a) a written certificate by at least two licensed and practicing physicians designated by the board of trustees, certifying that the member is disabled and unable properly to perform the duties of his position at the time of disability; and (b) a written statement from the employer certifying that such member is disabled and unable to perform the duties of his position as a consequence thereof; and (c) the employee certifies that he is not and has not been engaged in gainful employment.

The amount of temporary disability benefit shall be equal to 40% of the member's most recent salary at the time disability occurred and shall be payable in monthly installments at an annual rate of 40% of the most recent annual contract salary of the member at the date of disability. The board of trustees shall prescribe rules and regulations governing the filing of claims for temporary disability benefits, and the investigation, control and supervision of such claims.

In addition to the temporary disability benefit provided for herein, the member shall receive credit during any period of disability for which benefits are paid by the System in lieu of normal contributions of an amount representing the contributions that the member would have made had he been in active employment in his position and in receipt of salary at the rate of the most recent contract salary prior to the time disability occurred, and such amount shall be credited to him in lieu of contributions which he would otherwise have made. Credit as service shall also be granted the member during said period of temporary disability for which benefits shall have been paid, for age retirement and disability retirement allowance purposes. Any member receiving temporary disability benefit for the maximum period of time herein specified who shall at the expiration of such time be still disabled for service as a teacher shall be entitled to receive a disability retirement allowance, notwithstanding that such member shall not have the required minimum period of creditable service prescribed for the receipt of such allowance.

WHEREAS, The next few years will mark a crucial stage in a fundamental war of ideology that has been going on since the beginning of history, a war which involves the issue of whether every man is entitled to be free, to be possessed with human dignity and importance as an individual, or whether certain people shall have power to plan and run others' lives for them; and

WHEREAS, There has been inaugurated a program of "Letters for Freedom" by which men and women all over America are urged to write to their respective Senators and Congressmen, telling them to vote to avoid concentration of power in *anyone's* hands, whether business, labor leader, or government official, and to vote to stop spending so much of our money; and

WHEREAS, The Hinsdale Woman's Club has taken the initiative in implementing this suggested program, and other organizations and individuals are joining in the effort to keep America strong and free; therefore, be it

Resolved, By the House of Representatives of the Sixty-sixth General Assembly of the State of Illinois, the Senate concurring herein, That we go on record as favoring the aims and purposes of the "Letters for Freedom" program; that we commend those who suggested the program and all who have responded to the call for help in opposing concentrations of power and dangerous spending programs; and that a copy of this resolution be forwarded by the Secretary of State to the Hinsdale Woman's Club in recognition of its efforts in implementing the program.

GENERAL RESOLUTIONS

The House proceeding on the order of general resolutions, Mrs. O'Neill, Messrs. Pearson, Collard, Meyer, Cronin and Marek submitted the following:

"NOTICE

To the House of Representatives
State of Illinois

The undersigned members serve notice that, pursuant to Roberts Rules of Order, on the next legislative day they will move that the House rescind its action of May 10, 1949, by which the motion to discharge the Committee on Industry and Labor Relations from further consideration of House Bill No. 222 was lost.

Dated this 9th day of June 1949.

(Signed) Lottie Holman O'Neill
Harvey Pearson
Ora Collard
A. L. Cronin
Frank A. Marek"

Messrs. Berman and Ruddy offered the following resolution and, having asked and obtained unanimous consent to suspend the rules for its immediate consideration, moved its adoption:

HOUSE JOINT RESOLUTION No. 48

WHEREAS, During World War II, Senator Alben W. Barkley of Kentucky, now Vice President of the United States, introduced a Joint Resolution in the Senate providing for the appointment of a national commission to select a site and design for a memorial to the contributions of members of all religious faiths to American military and naval history; and

WHEREAS, United States Senator Scott W. Lucas has re-introduced in the 81st Congress a Resolution—known as Senate Joint Resolution No. 43—to carry out the objectives of the Joint Resolution introduced by Vice President Barkley; and

WHEREAS, The proposed memorial would symbolize the fundamental American spirit of religious tolerance and perpetuate the unselfish idealism which inspired our forefathers to enunciate the doctrine of human equality, which ever since has influenced our nation's political concept; and

WHEREAS, It has been repeatedly demonstrated during World War II, as well as in previous wars, that devotion to country is not the particular attribute of any racial or religious group, but is common to all; and

WHEREAS, A fitting tribute to the memory of those who so nobly championed the cause of democracy and the dignity of the individual in World War II would be the establishment of an All Faith Memorial that would proclaim for all time our belief in the brotherhood of all men; therefore, be it

Resolved, By the House of Representatives of the Sixty-sixth General Assembly of the State of Illinois, the Senate concurring herein, that we endorse the proposal contained in Senate Joint Resolution No. 43 now pending before Congress, and that a copy of this preamble and resolution be sent by the Secretary of State to each member of Congress of the United States from the State of Illinois.

And the resolution was adopted.

Ordered that the Clerk inform the Senate thereof and ask their concurrence therein.

At the hour of 11:30 o'clock P. M., Mr. James J. Ryan moved that the House do now adjourn.

And the House stood adjourned.

Resolved, That this City Council accept the challenge of the unacknowledged and self-appointed champions—that a committee be appointed by His Honor the Mayor and that said committee immediately set about arranging for said contest at a time and place to be agreed upon by said committee; it being understood that all receipts from said game to be donated to a charity to be selected by mutual agreement between this committee and a committee of the House of Representatives; and

Be It Further Resolved, That a copy of this resolution be forthwith transmitted to The Honorable Paul Powell, Speaker of the House, The Honorable James Ryan, Majority Leader, The Honorable Reid Cutler, Minority Leader and The Honorable James Adducci, manager and captain of the House of Representatives baseball team.

"If the Department of Public Health, after a full hearing of the application and objections thereto, if any, finds that the institution, by reason of its personnel, and the uses it proposes to make of animals, is a fit and proper agency to receive a license, and that the public interest would be served by the issuance thereof, such license shall issue; provided, however, that the institution has and maintains a building equipped with adequate heating facilities and kennels suitable for the humane housing and care of all animals it seeks to obtain from "dog Pounds". An institution receiving, or having issued to it, a license shall be permitted to receive one animal for each kennel maintained by it, and no more, until there exist actual vacancies in said kennels. At no time shall an institution permit more than one animal to occupy the same kennel. Each kennel shall be sufficiently large to permit the occupant thereof to stand, lie, or sit with reasonable comfort. The floor of each of such kennels shall be composed of solid material that is susceptible of being kept in a clean and sanitary condition. Not less than once each day, and as often as may be necessary, in order to provide and assure cleanliness and sanitation, said kennels shall be cleaned, and each animal shall be bedded down with such bedding as will assure reasonable comfort. Once each day, and as often as may be necessary, all animals not being utilized for experimentation at the time, shall be fed clean and wholesome food, and shall be supplied with fresh drinking water. Compliance with the requirements herein set forth shall be conditions precedent to the issuance of a license hereunder.

No such license shall issue to any institution if it shall appear that such institution has, previously to the making of its application for such license, engaged in animal experimentation in a cruel and inhuman manner by (a) resorting to, or practicing, surgery, cutting or other painful operations without first administering an anesthetic to such animal, or animals; or (b) failing or neglecting to provide any animal with adequate and humane post-operative care; or (c) failing or neglecting to destroy any animal where destruction is necessary or required in a painless manner.

A licensee fee of $50.00 shall accompany all applications for a license or a renewal thereof.

Any person affected by the final decision of the Department of Health may have such decision reviewed by the Circuit Court of Sangamon County. For the purposes of this Act, such persons shall include objectors to the issuance of a license hereunder. The provisions of the "Administrative Review Act" approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply to and govern all proceedings for the judicial review of the final administrative decision of the Department of Health hereunder.

The term "Administrative Decision" is herein defined as the said term is defined in Section 1 of said Administrative Review Act.

Summons in said proceedings shall issue to the Director of the Department of Health, or to any of his assistants. The Department of Health shall not be required to certify any record or prepare any transcript until the party instituting the review shall have paid to the said Department the sum of five cents for each one hundred words in said record. Exhibits shall be certified without cost.

Each such application shall be in duplicate and shall, upon the oath of the responsible official of the applicant, disclose: (a) the number of animals on hand at the time of the making of the application; (b) the source, or sources, of supply of such animals, and the number of animals received from each of such source, or sources; (c) the number of animals used since the date of the last prior application for animals; (d) the specific use, or uses, to which each of said animals was put, the method, or methods, employed, and the result obtained.

It shall be the duty of the poundmaster receiving such application to forward the copy thereof to the Department of Health with his endorsement thereon of the manner in which such application was disposed of by him.

No animal shall be appropriated by a poundmaster, or by any employee of any dog pound, and delivered to any licensee, or for any other purpose, unless and until the said animal shall have been impounded for a minimum of 10 days. If, within such period of time, any person is willing to pay applicable license fees and the reasonable expenses incurred by the dog pound in keeping the animal, the pound supervisor shall deliver said animal to that person; provided, however, that such person, under oath, states that such animal is to become a household pet, or to be used for domestic purposes only.

If any animal impounded is suffering from disease or physical disability, it shall be the duty of the pound supervisor to have such animal examined and treated by a skilled and reputable veterinary surgeon. If, however, after such examination, the surgeon is of the opinion that the animal must be destroyed, such destruction shall be accomplished under his direction and supervision in a painless manner.

It shall be unlawful for any licensee to import or transport any dog or cat into this State from any other State, or out of this State into any other State, and for each violation of this provision the responsible officer, or officers, of such licensee shall be punished as for a misdemeanor in accordance with the provisions hereof.

At the close of each fiscal year of the municipalities maintaining establishments for the confinement, care and disposal of animals seized by public authority, in accordance with the provisions of this Act, the cost of the maintenance and operation of such establishment shall be determined, after deducting therefrom all just credits and set-offs against such cost.

It shall be the duty of the pound supervisor to prepare, or cause to be prepared, a true and correct statement prorating such cost to each animal confined or impounded in such establishment during the preceding fiscal year, and each licensee shall be required to reimburse each municipality from whose pound it has received animals, a sum of money equal to the prorata cost of each such animal multiplied by the number of animals delivered to the licensee by such pound.

Failure to so reimburse such municipalities within 30 days from and after the date of notification of such assessment shall operate as a revocation of the license.

And the question being on the motion to table, a division of the House was had resulting as follows: Yeas, 57; nays, 29.

Mr. Speaker—I am directed to inform the House of Representatives that the Senate has concurred with the House in the adoption of the following preamble and joint resolution, to-wit:

HOUSE JOINT RESOLUTION No. 19

WHEREAS, The Board of Trustees of the University of Illinois, with the cooperation and assistance of members of the General Assembly and Governors of the State of Illinois, has established and maintained one of the largest and most highly recognized Universities in the world; and

WHEREAS, One of the most important phases of instruction offered by the University of Illinois is in the field of medicine; and

WHEREAS, The number of applicants for instruction in the medical sciences at the University of Illinois has increased tremendously during the past few years, substantially due to the fact that so many of these young men and women were engaged in World War II and, thereby unable to continue their studies during that time; and

WHEREAS, Although the University of Illinois accepts the largest number of students in its College of Medicine of any University in the United States, it has, due to lack of facilities, been unable to accommodate more than one-fourth of the number of residents of the State of Illinois who meet all of the minimum requirements for admission thereto; and

WHEREAS, In the selection of the approximately one-fourth of the qualified applicants who are residents of the State of Illinois and for which facilities were available, it has been deemed expedient to establish a committee on admissions which has thoroughly investigated and considered the qualifications of all the applicants for admission to the College of Medicine; and

WHEREAS, The single most important factor considered by such committee on admissions in determining who among all the applicants should constitute the group to be admitted annually, has been the scholastic average maintained by such applicants in University studies prior to the date of their application; and

WHEREAS, The members of the Sixty-sixth General Assembly of the State of Illinois, in recognition of the need for medical practitioners in rural areas throughout the State believe that particular attention should be given to the communities in which they live in determining which applicants are to be admitted to the College of Medicine if the health and welfare of the people in those rural areas shall not be impaired; and

WHEREAS, The members of the Sixty-sixth General Assembly believe that University students residing in rural areas are more likely to be required

to at least partially support themselves while attending school, thereby lessening the time they are permitted to devote to their studies and having an adverse effect on their scholastic averages; and

WHEREAS, The members of the Sixty-sixth General Assembly believe that sons and daughters of persons residing in the rural areas are more likely to return to those areas and engage in the practice of medicine thereby making more certain that residents from all parts of the State shall have adequate medical service available in their time of need; now, therefore, be it

Resolved, By the House of Representatives of the Sixty-sixth General Assembly of the State of Illinois, the Senate concurring herein, That we urge the Board of Trustees of the University of Illinois to take into particular consideration the rural areas in which sufficient doctors are not now practicing to maintain the high standard of health to which all of the residents of this great State of Illinois are entitled in considering applications for admission to the College of Medicine of the University of Illinois to the end that a definite preference be shown to the sons and daughters of the residents of those needy areas when those sons and daughters express at the time of their application an intention to return to their home communities upon completion of their medical course.

Concurred in by the Senate, June 15, 1949.
